SKILLS SUMMARY

- **Cloud Platforms:** AWS, Microsoft Azure
- **Containerization & Orchestration:** Docker, Kubernetes
- **Infrastructure as Code (IaC):** Terraform
- **Languages:** C, C++
- **Version Control:** Git, GitHub
- **Web Technologies:** HTML, CSS
- **Core Concepts:** Serverless Architecture, CI/CD
- **Soft Skills:** Analytical Thinking, Problem Solving, Goal-Oriented Planning, Adaptability

PROJECTS

QuickMed | Multi-Cloud Pharmacy Management Platform | [GITHUB](#)

Jul 2026 – Present

- Architected and coordinated a multi-cloud pharmacy management platform integrating Azure Static Web Apps with AWS Cognito, API Gateway, Lambda and DynamoDB to support secure role-based authentication and end-to-end medicine ordering workflows.
- Configured infrastructure deployment using Terraform and automated CI/CD workflows with GitHub Actions and Azure CLI, while validating cloud integrations, resolving deployment issues and iterating features through an Agile development process.
- **Technologies:** Terraform, AWS (Cognito, Lambda, API Gateway, DynamoDB), Azure Static Web Apps, Azure CLI, HTML, CSS, JavaScript

Dosa House | Real-Time Restaurant Management System | [GITHUB](#)

Jan 2026 – Jul 2026

- Conceptualized and delivered a real-time restaurant management system with role-based dashboards for Customer, Admin, Kitchen and Delivery, enabling end-to-end order lifecycle management with real-time synchronization using Firebase Firestore.
- Integrated Firebase Authentication, Firebase Firestore and Firebase Hosting to enable Google Sign-In, email/password authentication, OTP-based delivery verification and Progressive Web App (PWA) functionality across desktop and mobile devices.
- **Technologies:** JavaScript (ES6+), HTML5, CSS3, Firebase (Authentication, Firestore, Hosting), PWA, Service Workers, Google OAuth, Git, GitHub

Serverless Turnstile Access System | [GITHUB](#)

Mar 2026 - May 2026

- Designed & deployed a 100% serverless, event-driven access system using API Gateway, AWS Lambda, and Amazon RDS to validate turnstile scans with millisecond latency and zero idle costs.
- Enforced automated compliance logging and real-time security alerts by integrating Amazon S3 for immutable audit trails and SNS for instant capacity-breach notifications.
- **Technologies:** Amazon API Gateway, AWS Lambda, Amazon RDS (MySQL), Amazon S3, Amazon SNS, Amazon CloudWatch, Python

TRAINING

AWS Academy Cloud Architecting | AWS Academy | [Certificate](#)

Oct 2025 - Jan 2026

- Completed hands-on training in core AWS services including Amazon (EC2, S3, IAM, RDS, Lambda, VPC).
- Built and deployed cloud solutions while applying security, storage, networking and serverless architecture concepts through practical AWS labs.
- Strengthened cloud architecture fundamentals by designing secure, scalable and cost-effective AWS solutions.

CERTIFICATES

- AWS Cloud Architecting Badge | AWS Academy | [Certificate](#) Jan 2026
- Social Networks – NPTEL | [Certificate](#) Oct 2025

EXTRA CURRICULAR ACTIVITY

- Participated in a 24-hour Web-A-Thon 2.0 hackathon, collaboratively designing the 'Quick Serve' geo-routing platform under strict time constraints. | LPU | [Certificate](#) Feb 2026
- Assessed English communication skills through the Cambridge Linguaskills Exam. | LPU | [Certificate](#) Mar 2025

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology (B.Tech) in Computer Science and Engineering
CGPA: 6.71 Aug 2023 - Present
- **Tirumala Educational Institutes** Bhimavaram, Andhra Pradesh
Intermediate - PCM Jun 2021 – Mar 2023
Percentage: 75.6%
- **Tirumala Educational Institutes** Bhimavaram, Andhra Pradesh
Secondary School Education Jun 2020 – Apr 2021
Percentage: 100%
