SKILLS SUMMARY

- **Languages:** C, C++, Java, Python
- **Frameworks:** HTML and CSS
- **Tools/Platforms:** AWS, Docker, Git, GitHub, Data Structures and Algorithms
- **Soft Skills:** Goal-Oriented Planning, Creative Problem-Solving, Analytical Thinking, Adaptive Learning.

PROJECTS

Quick Suggest || [GITHUB](#)

Feb 2026 - Mar 2026

- Architected a lightning-fast autocomplete search engine using a custom C++ HTTP server and Trie data - structures, achieving highly optimized $O(L)$ search time complexity.
- Engineered the core backend with WinSock2 to handle concurrent network requests efficiently, demonstrating a strong grasp of low-latency system design and memory management.
- **Technologies Used:** C++, WinSock2 API, Trie Data Structure, Custom HTTP Server Logic, HTML/CSS.

Dosa House || [GITHUB](#)

Nov 2025 - Jan 2026

- Developed a responsive, full-featured restaurant website with structured, interactive UI components to digitally showcase brand identity and seamlessly enhance customer navigation.
- Optimized cross-device performance and accessibility using modern front-end technologies, ensuring rapid load times, smooth user experience, and consistent design validation.
- **Technologies Used:** HTML5, CSS3, JavaScript, React.js (or Bootstrap), Antigravity, Git & GitHub.

Cloud Based Turnstile Access System || [GITHUB](#)

Feb 2025 - Apr 2025

- Architected a secure cloud-based access system integrating biometric authentication, leveraging an AWS ecosystem (EC2, Lambda, RDS, SNS) for real-time data storage and automated alerts.
- Enforced robust data security, scalable access management, and high availability by implementing strict IAM policies, encryption protocols, and continuous monitoring via AWS CloudWatch.
- **Technologies Used:** AWS Ecosystem (EC2, S3, RDS, Lambda, SNS, IAM, CloudWatch, ELB, Auto scaling).

TRAINING

C++ with Data Structures and Algorithms || CSE PATHSHALA || [Certificate](#)

Jun 2025 - Jul 2025

- Completed an intensive training program focused on core Data Structures and Algorithms concepts and object-oriented principles using C++.
- Practiced implementing data structures like arrays, linked lists, stacks, queues, and trees through real-world problems and gained hands-on experience in algorithmic problem-solving and time-complexity optimization.
- Strengthened programming logic and OOPS concepts such as inheritance, polymorphism, abstraction, and encapsulation.

CERTIFICATES

- AWS Cloud Architecting Badge | *AWS Academy* | [Certificate](#) Jan 2026
- Social Networks – NPTEL | [Certificate](#) Oct 2025
- Build Generative AI Apps and Solutions | *Infosys Springboard* | [Certificate](#) Aug 2025
- Master Generative AI & Generative AI Tools | *Udemy* | [Certificate](#) Aug 2025
- The Bits and bytes in networking | *Google* | [Certificate](#) Sep 2024

EXTRA CURRICULAR ACTIVITY

- Participated in Web-A-Thon 2.0 (24-hr hackathon), rapidly architecting the 'Quick Serve' geo-routing platform. | *LPU* | [Certificate](#) Feb 2026
- Assessed English communication skills through the Cambridge Lingualskill Exam. | *LPU* | [Certificate](#) Mar 2025

EDUCATION

- **Lovely Professional University** Punjab, India
Bachelor of Technology - Computer Science and Engineering
CGPA: 6.61 Since Aug 2023
- **Tirumala Educational Institutes** Bhimavaram, Andhra Pradesh
Intermediate - PCM Jun 2021 – Mar 2023
Percentage: 75.6%
- **Tirumala Educational Institutes** Bhimavaram, Andhra Pradesh
Secondary School Education Jun 2020 – Apr 2021
Percentage: 100%
